PRODUCT BESCHRIJVING

Altech Max B Pellet

The Altech Max Pellet is a model from Altech's popular Max series. The Max B Pellet, like all other models in this series, is characterised by its steel frame and rectangular shapes. This combination makes the Max B Pellet the sleekest design of all Altech soapstone stoves.

Suitable for virtually every household

With an output of 2 to 10 kW, the Max B Pellet stove is suitable for providing both smaller rooms and larger spaces with wonderful infrared heat. The fire of the sleek Max B pellet stove is easy to admire through its large window. And with this model, you will not only enjoy a beautiful fire view. No, the wonderful and healthy infrared heat from the thick layer of soapstone combined with the simple, effective operation make these pellet stoves even more popular.

Enjoy a beautiful fire with this currentless pellet stove

With the Altech Max B pellet stove, you achieve a beautiful flame pattern and enjoy the healthy warmth of soapstone. This soapstone stove burns on wood pellets and does not operate in an automated way like a typical pellet stove, but with a micro-gasification system.

This patented technology ensures clean combustion and very high efficiency. This model (like the other soapstone wood and pellet stove models) functions on oxygen from the room and the natural draught in the flue. This power-free combustion system means no fans are required. As a result, you won't have to deal with noise or malfunctions. And thanks to the unique combustion system, Altech pellet stoves achieve high efficiency and minimal pellet consumption.

ENJOY THE WONDERFUL WARMTH OF SOAPSTONE WITH THE ALTECH MAX B PELLET STOVE

The Altech Max B consists mostly of soapstone. The unique thing about this material is that soapstone stores heat and radiates it evenly. You can compare this heat to the infrared heat of the sun. Infrared heat is the most natural heat available and warms objects in the room. The heat feels like a blanket wrapped around you, and heats up your entire body and surroundings.

Several versions of the Max possible

The Altech Max B Pellet is one of the sleek models in Altech's popular Max series. On top of that, it is available in natural soapstone with anthracite cast iron or in uniform black soapstone with black cast iron.

Experience the Altech Max B pellet stove for yourself

Curious about this pellet stove? Admire it in the showroom at one of our dealers or at HAVÉ Heating's Experience Centre.
