

MAX B DEPOT

An incredibly sleek design combined with the soapstone heat you know and love, that's what makes the Altech Max 'the stove of the future'. The MAX B Depot is equipped with a wood compartment, adding an extra touch to its appearance.

PRODUCT BESCHRIJVING

For the first time in Altech's 40-year history of making soapstone stoves, we decided to release a model with a steel frame. Thanks to this steel frame and the recessed soapstone, the Altech Max features the sleekest design of the entire soapstone stove assortment.

With an output of 3 to 8.5 kW, the Max can fill both small and larger rooms with delightful, infra-red heat. The wood-burning stove is easy to use. You can operate the integrated door handle and air supply slide using the included wrench. As usual with Altech, this product is available with a wood depot, offering you an even better view of the wonderful flames.

Curious about the Altech Max B Depot soapstone wood-burning stove?

Experience the delightful heat and take a look at this stove in the showroom of one of our dealers.
