PRODUCT BESCHRIJVING

The Altech Max W Depot soapstone wood stove is one of the popular models in the Max Series. The Max W depot is characterised by its oval design. Because of this design, this appliance boasts a beautiful wide view of the fire. These features combined with its high efficiency and the use of soapstone combined with steel make this stove very popular.

THE SLEEKEST SOAPSTONE STOVE ON THE MARKET

For the first time in Altech's 40-year history of making soapstone stoves, we decided to release a model with a steel frame. Thanks to this steel frame and the recessed soapstone, the Altech Max features the sleekest design of the entire soapstone stove assortment.

With an output of 3 to 8.5 kW, the Max can fill both small and larger rooms with delightful, infra-red heat. The wood-burning stove is easy to use. You can operate the integrated door handle and air supply slide using the included wrench. The base model is fitted with legs, the Max W depot stands a little higher due to

ENJOY THE WONDERFUL WARMTH OF SOAPSTONE WITH THE ALTECH MAX B PELLET

The Altexh Max B is mostly made of soapstone. The unique thing about this material type is that soapstone stores heat and radiates it evenly. This heat is comparable to the infra-red heat of the sun. Infra-red heat is the most natural heat there is, and heats up the objects in a space. The heat feels like a blanket wrapped around you, and heats up your entire body and surroundings.

ENJOY THE WONDERFUL WARMTH OF SOAPSTONE WITH THE ALTECH MAX W DEPOT

The Altech Max W depot consists mostly of soapstone. The unique thing about this material type is that soapstone stores heat and radiates it evenly. You can compare this heat to the infrared heat of the sun. Infra-red heat is the most natural heat there is, and heats up the objects in a space. The heat feels like a blanket wrapped around you, and heats up your entire body and surroundings.
